The lower revenue from the sales of air tickets was mainly due to customers’ preference in self-online air tickets booking rather than through travel agent. The lower revenue recorded for cruise tour was due to one off group cruise tour of RM0.19 million in the preceding year’s corresponding period.

The Travel Services Division recorded a lower loss of RM0.06 million (2018: RM0.14 million). The higher loss before taxation in the preceding year’s corresponding period was mainly due to share option expenses of RM0.07 million (2019: RM nil) for granting of ESOS to the eligible employees of the Travel Services Division.

**2. Comparison of Current Year’s Quarter Against Preceding Year’s Corresponding Quarter’s Result (Individual 3<sup>rd</sup> Quarter 2019 vs Individual 3<sup>rd</sup> Quarter 2018)**

The higher revenue of RM47.22 million (3Q 2018: RM44.10 million) recorded for the current quarter were mainly due to higher sales of USD11.08 million (3Q 2018: USD10.53 million) from the Moulded Power Supply Cord Sets Division in Indonesia. The higher revenue was mainly due to the higher demand from existing and new customers. The weakening of RM against the USD also increased the revenue of the Group in RM denomination. The average exchange rate used for the current quarter was RM4.1388/USD (3Q 2018: RM3.9839/USD).

The Group incurred a loss before taxation of RM0.38 million as compared to a profit before taxation of RM0.12 million in 3Q 2018. The loss before taxation was mainly due to lower profit margin earned from the Moulded Power Supply Cords Set Division and higher finance costs incurred.

**4. Commentary on Prospects**

The trade war between US and China may have a favourable effect on the sales in moulded power supply cord sets as the sales to US accounts for majority of the Group’s revenue.

However, the Board is of the opinion that business operations in moulded power supply cord sets and wire and cable remain challenging in view of the intense competition in the US market, rising inflationary cost in Indonesia, especially the compulsory annual increment of wages and salaries, high volatility of copper price and high working capital requirement. Also, the on-going trade war has caused uncertainties in the global market which may affect the demands and our Group’s revenue as well.

To counter these unfavourable conditions, the Moulded Power Supply Cord Sets Division will continue to focus on lean manufacturing process for better operational productivity, improve efficiencies, and better product quality in order to be more competitive and attract more customers.

The Group’s 49% owned travel retail business, Dufry HWG Shopping Sdn Bhd commenced its retail business in February 2018 and gradually fully opened to shoppers in October 2018. From the improved revenue and lower loss before taxation recorded in the first nine months of 2019, the Board is hopeful that this new venture will provide additional profit from the share of operating results after tax of the associate in the near future.

Barring unforeseen circumstances, the Group is targeting to achieve better operating and financial performance for the financial year ending 31 December 2019.

Meanwhile, the Board will continue to explore viable, synergistic and profitable business ventures to improve the Group’s performance.

**5. Profit Forecast or Profit Guarantee**
